

Table Top Bone Saw 1650mm

Description

- Anodized aluminium; supporting structure of casing, door and working surface is made of stainless steel.
- Pressing arm, portion measuring device, microswitch on the cover, blade cover, push-button board and self-stretching upper pulley.
- The easy and precise adjustment of the pulley, both in height and in up-down and left-right inclination, assures better contact with the blade.
- Easy cleaning with simple operation, you can take the blade and the upper pulley off so that there is a flat surface to be cleaned.
