

Water boiler 10 litre

Description

The 10 litre water boiler provides convenient, portable access to piping hot water without the need for hardwiring or mains plumbing.

Perfect for staff rooms, waiting areas, site offices, mobile catering and many others, the hot water urn features a powerful 2kW element to quickly heat water to the required temperature, regulated using the durable dial thermostat control.

Nairobi Kitchen Care

10L 1.Thermostat control(From 30?-110?)

All our different size urns have a water level gauge, which ensure you never run out of hot water, there is also a 2 way non-drip faucet, enabling the water to be cut off as soon as the tap is released. helping increase hygiene levels and reducing bacteria levels on spillages, reduces any mess that may occur with some other catering urns after the tap is closed.

FEATURES:

- Strong stainless steel #304 body
- Stainless steel locking lid
- Non-drip tap
- Insulated touch handles
- Easy to read water level gauge
- Concealed heating element (long life)
- ON/OFF switch
